Effective June 1, 2017

Clark Liquor Brokerage, LLC is pleased to announce the arrival of London Hill Gin.

London Hill Gin is produced at the famed Langley Distillery near Birmingham, England. They make their numerous gin recipes according to proper traditions of gin making, including pot distillation in "Jenny" (their 12,000 liter pot still) and maceration of the botanicals. London Hill Gin is loaded with citrus notes, lots of lemon peel, sweet orange zest and lime aromas. The botanicals include juniper (of course), ribbons lemon peel, sweet orange peel, coriander, cassia bark, cinnamon, angelica, orris root, and licorice.

No artificial flavors, oils or essences are used in the making of London Hill Dry Gin. All the ingredients are natural and sourced from the four corners of the world.
